ALL UP IN YOUR MIND

I try to get all up in your mind
It stops at a crime that I wanna make you mine
I try to get all up in your mind
I'll go and do the time if it means I'll make you mine
My eyes, Yeah! I really like your smile
It stops the time, Yeah! I'll stay here for a while
You give me that real good feeling that I need
Be careful what you ask for 'cause I just might comply

You need a real wild girl
You need me, all your demons, it's gon' take a little work
It's absurd, but I'm gon' say those 3 words
Yes, I do, I think it's true, I just know I love you
(I'll make you Mine! Mine! Mine!)

Tell mama that I'd do it for you
The rider always want you, I'll be groupie for you
It may hurt at first 'cause I'mma make you work

Put me first is what you need, I know you're gonna love me

(I'll make you Mine! Mine! Mine!)

I try to get all up in your mind

(All up in your mind)

Is my love a crime? 'Cause I wanna make you mine

(You're mine, you're mine)

I try to get all up in your mind (Yeah!)

I'll go and do the time if it means I'll make you mine (Yeah!)

My eyes, Yeah! they really like your smile

It stops the time, Yeah! I'll stay here for a while

You give me that really good feeling that I need (I need it)

Why don't you take the time to really notice me?

(I'll make you Mine! Mine! Mine!)

You need a really wild one

(You're Mine! Mine! Mine!)

I knew that you can't live without her

He know I'm a fucking problem

I knew that I could get it out of him

(You're Mine! Mine! Mine!)

I really love you (You know I love you)

Tell mama do it for you (You're Mine! Mine! Mine!)

My eyes behold you, this kitty always want you

I'm the only one for you (You're Mine! Mine! Mine!)

I try to get all up in your mind (All up in your mind)

It stops at a crime and I'm gonna make you mine (You're mine, you're mine)

I try to get all up in your mind (Yeah!)

I'll go and do the time if it means I'll make you mine (Yeah!)

My eyes, Yeah! they really like your smile

It stops the time, Yeah! I'll stay here for a while

You give me that feeling, feeling that I need

Why don't you take the time to really notice me? (I love it!)

I try to get all up in your mind

It stops at a crime and I'm gonna make you mine

I try to get all up in your mind

Be careful what you ask for 'cause I just might comply
