

ENERGY by (Ft. BEAM) & Beyonce Lyrics

This pdf is download from Showthelyrics.com check out for more lyrics

On stage rockin', I'm stir crazy

Coco flow like 1980s

Come, let's tell a drop lazy

None of that maybe energy (nah)

Energy

Energy

Just vibe

Votin' out forty-five

Don't get outta line (yeah)

Ooh, ooh, ooh, ooh

Pick a side

Only double lines we cross is dollar signs (yeah)

Ooh, ooh, ooh, ooh (hold up)

Wait, I hear you just got paid

Make it rain energy

She more Cancun, he more St. Tropez

Big wave in the room, the crowd gon' move

Look around everybody on mute

Look around it's me and my crew

Big energy

He was on stop mode, got froze

Froze front page Vogue, no pose

Chat too much, full clip unload

That's that Kodak energy

Energy

Energy

Energy

Yeah, yeah

Gold links, raw denim

You know that we do it grande

You know that I'm gon' be extra

When that camera go pop-pop-pop-pop-pop-pop

Keep 'em waitin' like dot-dot-dot-dot-dot-dot

Ooh, la, la, la

**That's the way them boys sound when I walk through the
block-block-block**

Then I Uzi that doozy, shot-shot-shot

We was chillin', mindin' our business

Poppin' our pain and champagne through the ceiling

Sippin' it up, flickin' it up

All this good energy got you all in your feelings, feelings

I'm crazy, I'm swearin'

I'm darin', your man starin'

I just entered the country with Derringers

'Cause them Karens just turned into terrorists

You was on stop mode, got froze

Froze front page Vogue, no pose

Chat too much, full clip unload

That's that Kodak energy (go, let's go, let's go, let's go)

Energy

Energy (go, let's go, let's go, let's go)

Energy

Yeah, yeah
