“Gelati”

[Chorus: Peewee Longway]

Richard Millions gave my wrist frostbite

Stay in the traphouse, trapping in all white (All white)

Dubai Ferarri, we aingt chopping at the red light

Drop on my seat, know I ride with my ID

I can make a famous get shot on some IG

Bitch in the booby trap, go-go for pop me

He low-low for body, get smoked like gelati (Gelati)

Dope out the dollar, we throw the narcotics

Dancing erotic, got dope in her body

Bought the bentayga, couldn't do the lil' mozzy

(Skrrt, skrrt)

My bitch look like Megan, don't do nothing but swallow

I call her Kim, drank nut out the bottle

I'm like, "Bitch, go fuck for a dollar" (I'm like—)

I'm too rich, Valentino my collar (I'm like—)

Thick bitch can't take this, she holler (I'm like—)

A trip by the jeweler, she way too hollered

[Verse 1: Gucci Mane]

They checking my ink, say they love my graffiti

Gave me two million, I bought me Ibiza

Rocking on Meek in Ibiza, I'm watching for Peter

I gave this apiña the meaner

Literally, literally, they can't get rid of me

Millions in a Rome, I rome in Cicile

Charlie go big at me, big, is you kidding me?

I'm the head nigga, the end of vacinity

Blast on my enemies, shit on the industry

Try me, I get you knocked off, like the Kennedy

Gorilla like Willie B, cool like a sinner be

Shoutout the industry, fucked up my image

Nigga, if energy impact my synergy

Nah, I can't ball, I call less as a ticket

Truth of me over, I tore up the ticket

Niggas be hoes, they horing to kick it

Niggas be dissing and snitching and giving descriptions

Then wake up with crickets and fishes

You gon' be found by a fisherman, act like you Gilligan

Gucci, you know I'm a villain

I beat you up mentally, figuratively, physically

I'm touching like ensiling, niggas be bitches

I find it sickening, show them no sympathy

No time for friends, I cut off his hands (His hands)

[Chorus: Peewee Longway]

Richard Millions gave my wrist frostbite

Stay in the traphouse, trapping in all white (All white)

Dubai Ferarri, we aingt chopping at the red light

Drop on my seat, know I ride with my ID

[Verse 2: BigWalkDog]

Look, went around the corner, might order me a mink (Brr)

Diamonds set ghost, fifteen-hundred for a teeth

If the table been full, how the fuck you go eat?

Chains VS1, car CTSV

If you keep it P, then there's money in the streets (Ms)

Worth like a couple Ms, they'll murder for you

I was in the Lamb' truck with a thirty on the seat (Pff)

Two bands for Chanel, that's a bow on my feet

She a real freak, she'll slap it on the cheeks (Hey)

She a down bitch, she'll set you for free

Take it to the wrong hood, they'll find you in the trees

Half a bird on me now, umm, where could Heather be? (Uh)

Spend a bag now, 'til my bitch patek pink

Had a condo in the collar, Gucci ship from overseas

Cuban 'til my neck froze, diamonds super load the breeze

(Breeze)

Got my money making 'Wop, 'cause I make this shit with ease

All VVS stones, boy, we come from EBT (Yeah)

I aint go to BET (No), I was posted in the streets

With a diamond AP, having Richard Millie dreams

'Member bruger boy Gene? Now Amiri with Supreme

It don't take much for my click to get seen

Old-head from the island said I'm doing my ting

Spent sixteen, just to buy my ring

I don't shoot no ball, I don't play for no team

BigWalk' like a ring

[Chorus: Peewee Longway]

Richard Millions gave my wrist frostbite

Stay in the traphouse, trapping in all white (All white)

Dubai Ferarri, we aingt chopping at the red light
