“If I Want You”

[Verse 1: DDG]

**Slidin' down Doheney, stayin' lowkey
You know you was in town, you should've told me**

**We was talkin' everyday, but I got cold feet
You hate me how I am, you miss the old me
Been in and out the city, makin' plays
So busy, losin' track of time, and mixin' up my days
I call you when I'm lonely, I come over, never stay
You sellin' me intention, but I'm cheap, I never pay**

[Chorus: DDG, *DDG & Halle Bailey*]

**You know what it is, bills, trips, tips
If I want you, yeah, yeah, uh
Baby, don't tease, slide, deep, 'tween
If I want you, yeah
Eight degrees in the 'Falls, then your heart froze
You so out of reach, and you doin' the most
You know what it *is, bills, trips, tips*
*If I want you, yeah, ayy, yeah, yeah***

[Verse 2: DDG, *Halle Bailey & Both*]

**Still haven't found one girl that I need
I wanna take it slow, but all she wanna do is speed (*Speed*)
She want a follow back, I told her, no, I like to lead
I'm touchin' you in person, I don't need you on my feed**

**Childish, you so childish, I like wild shit
I like hot girls, I don't want no mild shit
From the highlight room to my houses**

[Chorus: DDG, *Halle Bailey* & Both]

**You know what it is, bills, trips, tips
If I want you, yeah, yeah, uh (*If I want you*)
Baby, don't tease, slide, deep, 'tween
If I want you, yeah (*If I want you*)
Eight degrees in the 'Falls, then your heart froze
You so out of reach, and you doin' the most
You know what it is, bills, trips, tips
If I want you, yeah, ayy, yeah, yeah**

[Bridge: DDG]

**Yeah, long nights all alone
I been drownin' in this smoke, took a thirty, way too strong
I can't feel my face no more, I got options on my phone
I don't know which girl I want
Yeah, long nights all alone
I been drownin' in this smoke, took a thirty, way too strong
I can't feel my face no more, I got options on my phone
I don't know which girl I want**

[Chorus: DDG, *DDG* & *Halle Bailey*]

**You know what it is, bills, trips, tips
If I want you, yeah, yeah, uh
Baby, don't tease, slide, deep, 'tween
If I want you, yeah (*You, you*)
Eight degrees in the 'Falls, then your heart froze
You so out of reach, and you doin' the most (*Most*)
You know what it *is, bills, trips, tips*
*If I want you, yeah, ayy, yeah, yeah***
