## “Riptide”

[Intro]

Riptide, it's a riptide  
Riptide, it's a riptide

[Verse 1]

Finally frozen, no more emotion  
Started escaping, now everything's numb  
Dove in the deep end, stuck and I can't swim  
So out of breath, I know I don't have long

[Pre-Chorus]

Yeah, this is way too much, just give me the rush  
Yeah, this is way too much, just give me the rush

[Chorus]

I'm done explaining my pain, this is way too much  
I wanna feel euphoria, give me the rush  
'Cause it's the last time that I romanticize  
The riptide that's trying to drown me  
Full of excuses for way too long  
Don't wanna sing another hopeless song  
'Cause it's the last time that I romanticize  
The riptide, it's a riptide

[Post-Chorus]

Riptide, it's a riptide  
Riptide, it's a riptide

[Verse 2]

I'm so ashamed of my vicious problems  
Keeping the worst of me all to myself  
It's overwhelming, not ever telling  
The ones I love that I gotta find help

[Pre-Chorus]

Yeah, this is way too much, just give me the rush  
Yeah, this is way too much

[Chorus]

I'm done explaining my pain, this is way too much  
I wanna feel euphoria, give me the rush  
'Cause it's the last time that I romanticize  
The riptide that's trying to drown me  
Full of excuses for way too long  
Don't wanna sing another hopeless song  
'Cause it's the last time that I romanticize  
The riptide, it's a riptide

[Breakdown]

Don't wanna die, I guess I gotta let it go  
Don't wanna die, I guess I gotta let it go

[Chorus]

I'm done explaining my pain, this is way too much  
I wanna feel euphoria, give me the rush  
'Cause it's the last time that I romanticize  
The riptide, yeah

[Pre-Chorus]

I'm done explaining my pain, this is way too much  
I wanna feel euphoria, give me the rush  
'Cause it's the last time that I romanticize  
The riptide that's trying to drown me  
Full of excuses for way too long  
Don't wanna sing another hopeless song

**'Cause it's the last time that I romanticize  
The riptide, it's a riptide**

[Outro]  
**Riptide, it's a riptide  
Riptide, it's a riptide**
