“ BEAUTIFUL ”

[Intro: Future & DJ Khaled]

Yeah (We The Best Music)

So beautiful, beautiful fantasy

Yeah, it's Pluto (Another one)

Life is beautiful

Whatever, whatever

Whatever, yeah

DJ Khaled

[Verse 1: Future & DJ Khaled]

Pull up in that two tone, got me feelin' like a Jetson

Let it out, my sneaky link, lil' shawty like my best friend

Pop a bag on her, I'm a sponsor, she my investment

She not the only one without no questions (No question)

She don't want me with nobody else (No one else)

She just want me all to herself (All to herself)

She don't share with nobody else (Keep goin')

She just want me all to herself (Pluto)

Make her feel like a superstar, she way above average

I just new baguette her 'cause I'm a barbarian

**Soon as I put a Patek on her, now these hoes starin' (Now these hoes
starin', now these hoes starin')**

**Almost went to therapy but you was all I needed
I can't even front, you gave me somethin' to believe in
Show more Audemars, takin' your talent to Philippe
You can't up and leave 'cause you caught a nigga cheatin'**

[Refrain: Future]

**Every single night we burn sage 'cause we toxic (Because we toxic)
Mushrooms got us outside our bodies (Outside our bodies)
She so used to me swallowin' her, it's turnin' her rotten
Anytime I leave out on tour don't be plottin'
Every time I'm leavin' out the door she talk feisty
Just make sure you're holdin' me down before I'm out your sight
I go up from GRAMMYs, win by this shit international
Whatever you do just stay true and show passion
When you talk, be precise**

[Chorus: SZA]

**I took a flight for the Patek, you said, "Bae, you're so dramatic", I guess
Anything you want, boy, forget it, you just make me feel so
I took a chance and you grabbed it, you said, "Don't worry, I got it," you
said
And you just make me feel so beautiful**

[Refrain: Future]

**Every single night we burn sage 'cause we toxic
Mushrooms got us outside our bodies
She so used to me swallowin' her, it's turnin' her rotten
Anytime I leave out on tour don't be plottin'
Every time I'm leavin' out the door she talk feisty**

**Just make sure you're holdin' me down before I'm out your sight
I go up from GRAMMYs, win by this shit international
Whatever you do just stay true and show passion
When you talk, be precise**

[Verse 2: Future]

**She so beautiful she give life to the lifeless
It's a miracle, yeah, she cure me from my vices (It's a miracle)
Keep it spiritual, don't give up if you righteous (So spiritual)
I go digital, spendin' cash (Spendin cash)
Puttin' baguettes on all my staff (On all my staff)
Heaven or hell, good or bad (Don't be sad)
Christian Dior, shop in Paris (Shoppin' in Paris)**

[Chorus: SZA]

**I took a flight for the Patek, you said, "Bae, you're so dramatic", I guess
Anything you want, boy, forget it, you just make me feel so
I took a chance and you grabbed it, you said, "Don't worry, I got it," you
said**

**And you just make me feel so beautiful
I took a flight for the Patek, you said, "Bae, you're so dramatic", I guess
Anything you want, boy, forget it, you just make me feel so
I took a chance and you grabbed it, you said, "Don't worry, I got it," you
said**

And you just make me feel so beautiful

[Outro: Future & DJ Khaled]

**You took a flight for the Patek, you need to stop bein' dramatic, I know
Baby, you're beautiful**

So beautiful, so beautiful, so beautiful

You're so beautiful

So beautiful, so beautiful, so beautiful

Baby, come here, yeah, that's right
