“Comfortable”

[Verse 1]

Uh, drinkin' champagne out the bottle, straight
With family 'til they snatched you and convinced you to cooperate
(Damn)

Movin' through the streets, the only thoughts we had was "Dominate"
(Dominate)

Knee deep in the game, there ain't much we 'bout to tolerate (Not too much)
Road runners, in and out the town for like the whole summer
Sniffers claim they tryna kick the habit but their nose runnin'
Dead faces, we don't believe in credit, you can't hold nothin' (Nothin')
Trap like a museum, you could see the work but don't touch it (Don't
touch it)

Hoes loved it, tryna rock the nation, I need [?]
Life come at you fast so don't rush it, couple poles clutchin' (Couple
poles)

Seen dice games turn to candle lights, balloons rising (Boom, boom,
boom)

To Pablo Escobar's penthouse with the pool inside it (Pablo)
Used to play the scheme, I hit yo crib, don't matter who inside it (Don't
matter)

Who's supplying? Blue devil colored Mercedes, Duke inspired
Cali' smoke reekin' out my blunt, duckin' thirteen minus one (Twelve)
Puerto rico for a weekend or the month (Either, or)

[Hook]

Don't never get too comfortable
I hope you got some paper put aside in case they come for you (I hope)
Took it out the house, went and booked a room at the W (I booked a
room)
In case they raid the crib, I just told my bitch, "I'm in love with you"
Don't never get too comfortable (Never)
I hope you got some paper put away in case they come for you
Took it out the house, went and booked a room at the W (Gotta get out
the crib)
In case they raid the crib, I just told my bitch, "I'm in love with you"
Don't never get too comfortable (Never)
Never get too comfortable

[Verse 2]

I'm in a villa where the housekeepers don't talk
Prepare meals with no pork and low salt (Yeah)
They say if you die broke, then it's your fault (Uh-huh)
Fuck a chain, my niggas eatin' with gold forks (Yeah)
When them things come out, that's how we hold court (Yep)
You gon' need backup so call the whole force (Backup)
We got a policy over here, that's no laws (Never)
And the foreigners is matte black with no gloss (Woo)
When the back ends ain't right, the show's off (Over)
Know I got a gun on me and it goes off
Make it hot, had a whole block closed off (Mmm)
When you cut the dope's right when they doze off (Woo)
In the kitchen we ain't never cut the stove off (Nah)
Got the bitches baggin' up with their clothes off (Uh-huh)
You start chasin' the money then the money starts to run from you
Don't never get too comfortable, naw

[Hook]

Don't never get too comfortable
I hope you got some paper put aside in case they come for you (I hope)
Took it out the house, went and booked a room at the W (I booked a
room)

In case they raid the crib, I just told my bitch, "I'm in love with you"
Don't never get too comfortable (Never)

I hope you got some paper put away in case they come for you
Took it out the house, went and booked a room at the W (Gotta get out
the crib)

In case they raid the crib, I just told my bitch, "I'm in love with you"
Don't never get too comfortable (Never)
Never get too comfortable

[Verse 3]

Like Remo in *Casino*, we don't need no issues (We don't need no issues)

The niggas thought that they was Floyd, 'til they seen them pistols
No emotions when you focused, everything is mental (Everything)

Like you gotta become a king before a queen get with you

Open arms, how I get welcomed, this shit ain't no facade

Half-hitters at your crib dressed up like they came to mow your lawn

Young and thirsty, starvin' and eekin' past it with no baton (No baton)

Head full of steam, just pullin' strings, I don't own a guitar

Eight or nine kitchens, I seen birds hit the water and get to sink for not
swimmin'

Can't relate to my suspicions (No, no)

All the times I was broken-hearted, felt finished before I started

I gotta see the world, I could never just be a local artist (Not me)

[Hook]

Don't never get too comfortable

I hope you got some paper put aside in case they come for you (Got
some paper)

Took it out the house, went and booked a room at the W (Uh)

In case they raid the crib, I just told my bitch, "I'm in love with you"

Don't never get too comfortable

I hope you got some paper put away in case they come for you (Yeah)

Took it out the house, went and booked a room at the W (Yeah)

In case they raid the crib, I just told my bitch, "I'm in love with you"

Don't never get too comfortable (Never)

Never get too comfortable
