“Time”

[Verse 1]

The time
We had together
A time
When all things were better
All of those moments
May have gone too soon
They meant so much

[Pre-Chorus]

I never knew
For only now
Can I truly see
How much that time with you
That time shaped me
So even though
I was unaware

[Chorus]

I wanna say thank you
For the time we shared

[Verse 3]

The time
When all things were better
Will stay with me

**For as long as I remember
So much I have done
Has withered away
But never these memories
I cherish today**

[Pre-Chorus]
**How could I have known
Just how strong they could be?
They changed my life
In ways I can't believe
In those moments
We'll stay forever**

[Chorus]
**And so I thank you
For the time we had together**
