“Western Wind ”

[Verse 1]

California, it crossed my mind
Once, we were pressed into the—
Love, we were pressed into the breeze up on the mountain
I was by your side

Do you remember a conversation
With our heads against the pillow?
Dust my shoes before I enter through your doorstep
I was on your side

[Chorus]

Comin' in like a western wind
Do you feel home from all directions?
First bloom, you know it's spring
Remindin' me, love, that it's all connected
What is love?
Comin' in like a western wind

[Verse 2]

A jubilation, a celebration
Take me back into your corner
To the center of the room we made a dancefloor
I was charmed to let go

[Chorus]

**Comin' in like a western wind
Do you feel home from all directions?
First bloom, you know it's spring
Remindin' me, love, that it's all connected
What is love?
Comin' in like a western wind**

[Bridge]

**But could you give me peace of mind
If I return to you in time, my golden arrow?**

Mmm

(Ooh, ooh)

(Ooh, ooh)

(Ooh, ooh)

(Ooh, ooh)

[Chorus]

**Comin' in like a western wind
Do you feel home from all directions?
First bloom, you know it's spring
Remindin' me, love, that it's all connected
What is love?
Comin' in like a western wind
Comin' in like a western wind
Do you feel home from all directions?
First bloom, you know it's spring
Remindin' me, love, that it's all connected
What is love?
Comin' in like a western wind**

[Chorus]

Comin' in like a western wind

**Do you feel home from all directions?
First bloom, you know it's spring
Remindin' me, love, that it's all connected
What is love?
Comin' in like a western wind**
