“Back And Forth”

[Chorus: Lil Baby]

**It's like sixty girls, just me and gang, and no one got they phone
Get into it, if she out with us, then she won't make it home
I'm a tourist, fuck me good tonight, tomorrow, I'll be gone**

[Verse 1: Lil Baby]

**No insurance, we can't stop the car I'm ridin', right or wrong
This shit serious, bro just beat his couple charges, he comin' home
Don't play period, I'll fuck a city girl and send her home
All my jewelry hittin' G.I.A. certified on every stone
At this point, ain't even gotta put it on, they know what's up with me
I made everybody shine together, you know I fuck with Gee
Sell a thousand pounds of strong, for real, and that was in a week
I've been focused, but I'm steady climbin', I'm nowhere near my peak
You emotional, won't go to war, you know that she a freak
Like to pop it, if I put it on, you know that it ain't cheap
Knock her down and then I break her off, I know that shit ain't free
Nah, for real, I never paid to hit, I'll pay a bitch to leave
Switches hot, so we done stepped it up, the Glock 17s
I ain't backin' down from nothin' that can talk or can bleed
Bruh, I'm somewhere at the World Cup, I'm not in your league
You was playin' a game when I was on the block, chasin' my dreams**

[Verse 2: EST Gee]

I was pullin' up with testers tucked to pass out to the fiends
I spent five-somethin' on a Rolls truck and I'm fresh from out the streets
Drop the price, smoke smack and ice, my trap a trampoline
Said I'm trippin', I'm still into spinnin', speedin' off from the scene
Baby heard of me for bustin' yeeks before he heard me speak (Yeah,
before he heard my raps)
Drop a V, like flocks of geese, on the island or a beast (On the island)
Break my dog down to grits, you want it raw or want it cheap?
You a shiner, you with me, you see them diamonds on our teeth
Fuck would I be scared for? I'm sprayin' somethin' that weigh enough
To decapitate a werewolf, a load, you know I'm payin' her
Fuck here like I care or somethin', I eat her, I don't smell nothin'
Baby send me hoes, I send him hoes, so we be sharin' em
Richest nigga out my area, I came and carried us
Gangster, I'm the type to spank him, help pay for the burial
4PF and EST, me and Baby, James and B
Niggas better stay in they league, I'm one of the realest niggas to ever
breathe

[Chorus: Lil Baby]

It's like sixty girls, just me and gang, and no one got they phone
Get into it, if she out with us, then she won't make it home
I'm a tourist, fuck me good tonight, tomorrow, I'll be gone
