“Stone Cold”

[Chorus: Mariah the Scientist & *Dess Dior*]

**Said he callin' from Atlanta, say he miss me
Well, well, well**

**Guess he better send that private out to get me
Expect this to be a long cold winter
You fuckin' with a stone cold sinner
*Fuckin' with me, you got no regrets
Fuckin' on me, know I do it best
Fuckin' on you, only want the neck
I know how it goes***

[Verse 1: Dess Dior]

**Say he fall in love every time he kiss me
Well, well, well**

**And you always right on time, that's what gets me (Gets me)
Am I ever on your mind when you not with me? (With me)
Maybe you and I should start a family
What you sayin'? Follow through
Baby, take the lead, show me what to do
I'm intrigued, everything 'bout your demeanor
How I'm comin' crazy, but I'm never leavin'**

[Chorus: Mariah the Scientist & *Dess Dior*]

Said he callin' from Atlanta, say he miss me

Well, well, well
Guess he better send that private out to get me
Expect this to be a long cold winter
You fuckin' with a stone cold sinner
Fuckin' with me, you got no regrets
Fuckin' on me, know I do it best
Fuckin' on you, only want the neck
I know how it goes, I ain't impressed

[Verse 2: Mariah the Scientist]

Baby, I've seen this before
I assumed you wanted more
You just wanna up the score
Know that you know there's more tonight
Said that you a freak, tell me, is it true?
Wanna see the receipts, baby, can you follow through?
Take me up out these jeans, won't you fuck me in a booth?
Say you a P, baby, let me see the proof
[Chorus: Mariah the Scientist & Dess Dior]
Said he callin' from Atlanta, say he miss me (Well, well)
Well, well, well

Guess better send that private out to get me (Yeah)
Expect this to be a long cold winter (Yeah)
You fuckin' with a stone cold sinner (Oh, oh)
Fuckin' with me, you got no regrets (With me)
Fuckin' on me, know I do it best (I do it best)
Fuckin' on you, only want the neck
I know how it goes, I ain't impressed (I ain't impressed)

[Outro: Mariah the Scientist]

Said he callin' from Atlanta, say he miss me
Well, well, well
