“Lay Up N' Chill”

[Chorus: Pink Sweat\$]

I just wanna lay up and chill
Sippin' on that Rosé, really get you in your feels
I just wanna stay up all night
Starin' in your eyes, take a deep dive in your mind
I know at my worst, you gon' ride for me
Even when it hurts, I know you'd die for me
I always put you first 'cause you my everything
You're my everything
And I'll do the worst for your love

[Verse 1: Pink Sweat\$]

Really like this side of you
Don Julio, 1942, Malibu
We can take a shot or two
After this bottle is done, done, done
We had a moment, just take it and run away
We can have a rendezvous, just me and you
Grippin' on your thighs
I know you like it 'cause your eyes, they never lie
You can't keep no secrets, even if you tried
That pussy mine

[Chorus: Pink Sweat\$]

I just wanna lay up and chill
Sippin' on that Rosé, really get you in your feels
I just wanna stay up all night

**Starin' in your eyes, take a deep dive in your mind
I know at my worst, you gon' ride for me (Ride)
Even when it hurts, I know you'd die for me
I always put you first 'cause you my everything
You're my everything
And I'll do the worst for your love**

[Verse 2: A Boogie wit da Hoodie]

**Yeah, I've been goin' up
And I can tell by the way, you hesitate when we fuck
You've been havin' problems tryna trust
It was six P.M. in Hermès
She like, "Why you even thinkin' 'bout sex right now?
Are you out of your mind?"
Look at my life, look where I'm at right now
I only care about time
Layin' up is irrelevant
Show me what you wanna do without tellin' it
Tell me you love it without sayin', "I love you," 'cause I'm over it
And you know you fuck with me the most 'cause I videotape without
even exposin' it
And I gave you them bankrolls without even foldin' it**

[Chorus: Pink Sweat\$]

**I just wanna lay up and chill
Sippin' on that Rosé, really get you in your feels
I just wanna stay up all night
Starin' in your eyes, take a deep dive in your mind
I know at my worst, you gon' ride for me (Ride)
Even when it hurts, I know you'd die for me
I always put you first 'cause you my everything
You're my everything
And I'll do the worst for your love**
