## “Nuthin i can do is wrng”

[Intro]

*'Cause when you're near me*

*Everything is right*

*Nothing I can do is wrong, with you-*

**It's Big. Fucking. MIKE**

*Nothing i can do is wrong, when you*

**Uh, through the city i can't do too much of looking up**

**My sister hit me tryna push me say I'm good enough**

**150 for the kush is what I'm putting up**

**I keep it- uh, huh**

[Verse]

**Through the city I can't do too much of looking up**

**My sister hit me tryna push me say I'm good enough**

**150 for the kush is what I'm putting up**

**I keep it hundiddy, one foot inside of crooked stuff**

**My trust iffy, once pitied when I shouldn't've**

**You bunch trippy, one shimmy; that the look of love**

**Tough kidney cut busy, why I couldn't run**

**Young kitty, tongue grizzly for a sugarplum**

**More than I really want, you said it's time we had that talk, I guess this  
really us?**

**Sick times, barred inside that Philly bus**

**It's big MIKE, had to crawl before I really jumped**

**Or lift like it's my all, gotta give a bunch**

**And sit tight through the fog, it be bigger floods**

**And midnights full of thoughts, I be quick to tuck  
Like to live life be the cause when there isn't none  
Or the gift might abroad under different sun  
Noah clipped mines, being lost tryna give a fuck**

[Refrain]

**Through the city i can't do to much of looking up, huh, huh  
Through the city i can't do to much of looking up, huh, huh**

[Outro]

***-Me, nothing I can do is wrong, with you-  
-Me, nothing I can do is wrong, with you-***
