## “Can't Deny”

### [Verse 1]

On my mind  
We playin' on my mind  
You say that you're the truth but you've been a lie  
More than qualified, you can't replace my spot  
I made you top, gave you all the time  
You treat it like it's comparable to nothin'  
And I did right but it's you who needs adjustin'  
Eye to eye, it seems like we can never see  
You dealt other people, now you wanna

### [Chorus]

You can't deny, you're one of a kind  
You can't deny, the love that I gave you  
Runnin' on your head without event tryin'  
Faithful instead when I could've played you

### [Bridge]

When I'm gone, yeah, I just wanna make sure you feel it  
Dial tones, when you call my phone it's what you're hearin'  
You can't deny, you're one of a kind  
You can't deny, the love that I gave you

### [Chorus]

You can't deny, you're one of a kind

You can't deny, the love that I gave you  
Runnin' on your head without event tryin'  
Faithful instead when I could've played you

**[Verse 2]**

Tell me how you feel, you feed me lies, yeah, I dare you  
Wasted all my time when you know I took good care of you  
    Speakin' out of line  
    You can't deny, there's no love like mine  
    That love you can't decline  
Wish you would've known how to move when you had me  
    Put me on a pedestal and treat me like you need me  
    Promise to return it, I did my part, just own it, yeah, yeah  
    Baby, you ain't never seen me

**[Outro]**

(You can't deny, you're one of a kind)
