## "Doo Wop (Freestyle)"

Yeah, best motherfucking rapper, nigga  
All the mommas, the aunties, the grandmas, the grannies  
They gon' love this shit, they gon't be like, "Ooh, he it"  
Let's go

I'ma keep it pimping with you  
I like what you do but it ain't for me  
I prefer the simple women  
She got it from you  
I got it for free

I was probably hitting it different  
Yeah, you gotta be careful  
Most of these women they want the same thing  
Wanna take selfies in the Maybach  
Wanna ride 'round drinking champagne, yeah

'Boutta be tapped back into my campaign  
And girl, you know you gotta watch these niggas  
Niggas don't be knowing shit  
These niggas be tricks, paying for pussy  
These niggas be over with  
I'ma drop a mixtape and make the world stop like Kobe did  
Amex the credit cards and the hunnids blue like Hova kid  
Yeah, my woman on deep shit with G shit, she like Lauryn Hill  
Not the kind

I was out here putting it down for my team, I couldn't afford  
The same people I was hustling for  
I know

I been chose myself too many times to be in my feelings 'bout it  
As long as my daughters and nieces happy

So the first nigga play with 'em wrong  
I'ma stop everything and kill somebody, anybody  
I do a nigga wrong and forget about them  
Ain't taking no handouts from these niggas, know I'ma get mine  
She say she never been out the country, she get sick blind  
Grammy-nominated six times  
I'm having a good time

Shitting on niggas and giving  
I already did it before but I'm back more wise and a lil' more patient  
In a hotel room with hoes and condoms, don't need no more babies  
She already know she gon' die right there with the robbers if she tryna  
show locations  
Bitch

And I'ma still pop my shit regardless if they play my song  
I'ma just come back with some hard shit, it won't take too long  
I'm across the country, I'm working niggas  
I'ma stand on business  
I'ma do hits so wrong I'ma make everybody say I'm right  
Been learned quick

I seen it, nigga  
I'm telling you  
First hand, a veteran  
She gave a firm handshake and told me I'm excellent  
I'm ghetto, left the restaurant grab a hand full of peppermints  
Know I ain't perfect, I see this how I expected it  
I been through worst and I mean it, so I ain't stressing it  
This beat remind me of the nineties back when we ain't had shit

But our family, now I see what the biggest blessing is  
Your people, nigga  
'Cause that's the biggest motherfucking blessing  
Yeah, so make sure  
Everybody else, nigga, fuck 'em, get money  
Ha, best rapper  
Yeah, let's go  
Uh, uh, uh  
Believe that  
Let's go
