Fam don't hit me with no fake love Boy it's not authentic
Y'all be on that bull Y'all must be kin to Dennis
Disregard a 2 for 1 boy I know what the deal is
Peep the Irony these quote on quote Real niggas lacking realness
Uh I don't trust a word they say
We ain't heard of you but know you heard of me
Certainly reciprocate the feeling ain't no courtesy
They be resting on me niggas claim they got my back but they be lying on
my vertebrae
Never again

I keep it cool but Ain't no squares within my circle of friends
Y'all keep it going That's why I don't even make no amends
They gone fake love me till they love me then they hate me again despite
all my wins

Now a nigga knows that the support it's not real &
Niggas be tryna take my spot
Bunch of cruella de villains
They gone fake it till I make it at least that's my opinion
But if you acting irate then
You better keep with that distance

We Talkin

I don't really roll with the fake ones
That Fake love make me hate love
Now I'm sick of practicing patience
With niggas who really not really real
They pretending & they got me feeling a little over complacent
Niggas run up to me hella fake like boy I love yo tunes
Then they change up on you like how niggas in they wardrobe do
Tell you they gone hit you up & link
Like what the others does
All they do is beat around the bush like they George W
Like they george W
Can tell by they smile, can tell by they nouns
I read through people most are not really down
Don't really need em I been doing this myself for a while.
Now niggas tryna have me down for the count
Know that I see through niggas
X-ray they motives
I peep them niggas
I Understand why they can be Ben franklin with a nigga
They counterfeit
Know they not fond of the sound of it

And I'll counter off any fakeness
With Negative Countenance
We Talkin
False Love
False Love
Niggas Advocate
That False Love
Boy That False Love
(Talking Bout That)
False Love
Time to boss up
Niggas Harvey Dent
Can't Walk Up
With That False Love
(Talking Bout That)
