## "Free Game"

### [Intro: E-40]

Free game, mayne, ya know  
(What you mean free game?)  
Free game for the F, mayne, for the free  
You know what I'm talkin' 'bout?  
I used to sit back and listen to the OG's  
You know what I'm sayin'?  
The game is to be told, not sold, you understand?  
Free game

### [Verse 1: E-40]

Eager to learn, I paid attention to the protocol  
Observed and I watched and sat back just like a fly up on the wall  
Soaked up game like a sponge or should I say beach towel  
Back then, this young hyena'll growl instead of sm-uh-smile  
Gotta have alligator skin in this concrete jungle  
(What they clutchin'?) They clutchin' long guns taller than Mutumbo  
Sinister mob-ish up-tempo slaps, that's what I'm on  
Liable to pull up in a Granada, hangin' out the dome  
Corner the market, gettin' out product, flippin' my multiplications  
Movin' around in the traffic  
Makin' my presence known all across the nation  
That's the persona of a block boy with a destination  
Stand out the way so I don't get off up in the way

**[Chorus: E-40]**

Free game (Free game) free game (Free game)  
Free game (Free game) free game (Free game)  
That's free game (Free game) free game (Free game)  
Free game (Free game) free game (Free game)  
That's free game (Free game) free game (Free game)  
Free game (Free game) free game (Free game)  
That's free game (Free game) free game (Free game)  
Free game (Free game) free game (Free game)  
That's free game (Free game)

**[Verse 2: Snoop Dogg]**

Telemarketing, telecommunications  
Tell a nigga Snoop Dogg back with favorite nations  
Gettin' money out your favorite television stations  
Relevant, selling shit, I'm up in the Matrix  
It's basic how I move with persistence but patience  
I'm slidin' through the city in a spaceship  
Evasive, that Bay shit knock (Knock)  
From the streets to the suites, from the trunk to the block  
LLC, then we signed on the dot  
Control the plot, and all the money in our pot  
It's a new way of thinkin'  
Black-owned, backbone, Black bankin'  
Real estatın', elevatin', educatin'  
Money-makin', motivatin', no doubt  
We about free game  
From the Dogg and it's on the house (Free game, yessir)

**[Chorus: E-40]**

Free game (Free game) free game (Free game)  
Free game (Free game) free game (Free game)

That's free game (Free game) free game (Free game)  
Free game (Free game) free game (Free game)  
That's free game (Free game) free game (Free game)  
Free game (Free game) free game (Free game)  
That's free game (Free game) free game (Free game)  
Free game (Free game) free game (Free game)  
That's free game (Free game)

**[Verse 3: Too \$hort]**

You can never get enough of this  
Real game, stay away from sucker shit (Fuck that shit)  
'Cause when you tryna get ahead  
You gon' make somebody mad, gettin' all that bread  
A broke nigga got nothin' to lose  
It's too easy, look like I'm breakin' the rules  
I get money, every day, my way  
You get paid, too, every other Friday  
Big difference, your hustle and mine  
You don't hear me though — you thought I was lyin'  
When I told you how to get that extra  
Go so far up, they can't catch you  
I can't give you too much game for free  
All them songs, you ain't been listenin' to me?  
This the last thing, I'ma tell you now  
Don't let these hatin' assholes hold you down

**[Chorus: E-40 & Ice Cube]**

Free game (Free game) free game (Free game)  
Free game (Free game) free game (Free game)  
That's free game (Free game) free game (Free game)  
Free game (Free game) free game (Free game)  
That's free game (Free game) free game (Free game)

Free game (Free game) free game (Free game, yeah)  
That's free game (Free game) free game (Free game, free  
ninety-nine, nigga)  
Free game (Free game) free game (Free game)  
That's free game (Free game)

**[Verse 4: Ice Cube]**

All you gotta pay is attention, listen  
Keep the information flippin', that's the mission  
Make sure it trickle down, to the children  
Make sure they know how, to make a killin'  
Yeah, nigga, you said it take a village  
Teach they ass they ain't gotta go pillage  
Free game, no charge, go large  
Never let a nigga pull your hoe card  
Bogart the Boulevard  
Fuck the police, pay attention to the OGs  
I'ma tell you like a nigga told me:  
You gotta hustle like E-40  
Get a duffle like Snoop D.O. double G  
Too Short lay a bitch like gold leaf  
I'ma show you how like I'm the chief  
So you mama ain't gotta go lay a wreath

**[Chorus: E-40]**

Free game (Free game) free game (Free game)  
Free game (Free game) free game (Free game)  
That's free game (Free game) free game (Free game)  
Free game (Free game) free game (Free game)  
That's free game (Free game) free game (Free game)  
Free game (Free game) free game (Free game)  
That's free game (Free game) free game (Free game)

Free game (Free game) free game (Free game)  
That's free game (Free game)
