We got glocks we got chops we through switches on em
Lil bro squeezing it ain't stop it got to glitchin on em
This bitch ate me almost died she took my soul away from me
Ask the last opp how he died we took his soul away from em
We took his soul from em (ya)
This still ain't get back (still ain't get back)
Switch his load up in two halfs look like a Kit Kat (look like a kit kat)
Get off the internet
Know we ain't wit that (know we ain't wit that)
How you bragging about them killings and y'all ain't did that(and y'all did that)

Aye, yeah
Grrah Grrah Grrah
Yea that's how they sound

We got them switches around (around)
That's when you know dracos around (get out now)
Before we was putting niggas, on we use to put shit down (you know that)
Get down or lay down we'll come flip yo town (no late)
I use to be scared of them switches
Think they'll bring out the fed in a nigga
Always had faith in my nickel
I know it'll take off the head of a nigga
Lot of cash but bro still a pass it
They know I'mma only see red when I get it (let's get it)
My lil hoe in the A she be callin me bae
But I only want head when i'm wit her (Swerv)
Glitches
We got glitches, we got glitches, we got glitches
We got
We got glitches, we got glitches
