“Two Weeks”

it feel like a lifetime with you
but it's only being two week
it It feel like a lifetime with you.
I'm with you but it's only been two,
but it's only been told.
why do we fit so perfectly
but flawless when put together
why would fly with you and not want to leave
why does you want?
They go away my thigh.
we now My favorite places,
you know,
my favorite thing.
you're now My favorite person you're making me want
we now have favorite places.
You know,
my favorite things.
You're not my favorite person.
You making me want to it feels lifetime with you but its being two weeks
it feels like a lifetime with you but its being two weeks
i don't want to do anything,
if it's not. with you Your brother is my
energy without
you are feel everything,
i feel everything now

we now have favorite place
you know my favorite things
you're now my favorite person
you're making me want a ring
we now have favorite place,
you know my favorite things,
you know,
you're my favorite person.
you're making me want a ring
Making me want to raise it like a lifetime
it feels life time with you.
but it's only been two week
but it's only been two week
it feels life time with you
it feel life time with you
but it's only been two week
