"How Many"

[Verse 1]

I just circled
Your block again
I thought we should talk this out
But there's not much left to talk about
I seen you with someone
But that someone's not this someone
Who was I to think you'd come around, shit

[Pre-Chorus]

All you be doing is
Hanging out with all your niggas and
Ignoring all of your problems
It's cool you think you're different
Just show you're into someone sometimes
Settle down, settle down
At some point gotta ask yourself
Questions like

[Chorus]

(How many)
Women have you fucked?
(How many)
Women have you loved?
(How many)

Promises you make?
How many did you break?
(How many)
Women paid the price?
(How many)
Fell for all your lies?
(How many)
Times you got your way?
One won't be today?
(How many)
Women have you fucked?
(How many)
Women have you loved?
(How many)
Promises you make?
How many did you break?
(How many)
Women paid the price?
(How many)
Fell for all your lies?
(How many)
Times you got your way?
One won't be today?

[Verse 2]

These days
I'm a back-seater
We ain't made no progress so far
And nothing's changed when you call me
I called it
Act different with your homies
That's that shit I don't like
You think I condone this
That's when I say I see you
You so

Quick to be like no ties
If I'm riding, you ghost riding, shit

[Pre-Chorus]

All you be doing is
Hanging out with all your niggas and
Ignoring all of your problems and
It's cool you think you're different
Just show you're into someone sometimes
Settle down, settle down
At some point gotta ask yourself
Questions like

[Chorus]

(How many)
Women have you fucked?
(How many)
Women have you loved?
(How many)
Promises you make?
How many did you break?
(How many)
Women paid the price?
(How many)
Fell for all your lies?
(How many)
Times you got your way?
One won't be today?
(How many)
Women have you fucked?
(How many)
Women have you loved?
(How many)
Promises you make?
How many did you break?

(How many)
Women paid the price?
(How many)
Fell for all your lies?
(How many)
Times you got your way?
One won't be today?

[Outro]

(How many)
(How many)
(How many)
(How many)
(How many)
(How many)
