## "Needed That"

### [Intro: PnB Rock]

Oh-yeah-oh

Oh-yeah-oh

Niaggi, this that overseas drip

### [Chorus: PnB Rock, A Boogie wit da Hoodie & Both]

Finally got my heart broke, yeah, I needed that

Took a little while to get the pieces back

Went and fucked a rapper, couldn't believe in that

Stabbed me in my back, you had me bleedin' bad

Did it to myself, I guess it's all my fault

'Cause I was out here cheatin' when you played your part

I know I'm the reason that you act like that

But shawty, you won't get a nigga back like that

### [Verse 1: PnB Rock]

Yeah, tryna drown my pain out with this Styrofoam (Styrofoam)

And on days when you see me I be all alone (All alone)

Birthday in December, she left me in the winter

Everything was different, that's what I remember (Yeah)

Back then, it was all cool, way before it was me and you

Every time I was in the city, you'd call my phone, I breeze through

Fuck you good on the late night

Way before we started datin' (Yeah)  
All of the sudden start catchin' feelings  
Probably think we should have stayed friends  
We broke up, 'cause shit just ain't feelin' the same (The same)  
And I hate you had to find it out this way (This way)  
You got niggas, I got bitches, we the same (Same)  
And it's crazy 'cause I-

**[Chorus: PnB Rock]**

Finally got my heart broke, yeah, I needed that  
Took a little while to get the pieces back  
Went and fucked a rapper, couldn't believe in that  
Stabbed me in my back, you had me bleedin' bad  
Did it to myself, I guess it's all my fault  
'Cause I was out here cheatin' when you played your part  
I know I'm the reason that you act like that  
But shawty, you won't get a nigga back like that

**[Verse 2: A Boogie wit da Hoodie with PnB Rock]**

Any time you needed me, I was a phone call  
Louie V every season, 'cause you love to show off  
You heard that I was cheatin' and did me so wrong  
And I don't wanna go there with you, all of my bros official  
Instead of goin' toe to toe, we just have heart to hearts  
And they gon' ride for me whether I'm right or wrong about it  
And damn right, if she do me dirty, I'ma have to make another song about it  
Fuck 'bout a weddin' ring, I got better things, planned to my life, I promise  
And I would take back everything, but everything that you was, was nothing  
compared to my bank deposits  
And if you do everything, I did it, you would tell me why would I cry about it  
Bitches done broke my heart since I was young and I picked up a pen  
about it  
I don't trust anybody, and I don't include myself when I say "Anybody"  
Wasn't with me way back when I got my heart broke and I needed that  
Feel like I'm moonwalkin', I just bought me a zip, all I do is get high about it

She want a nigga from Highbridge, I be known, she wanna sky rocket  
She do the pillowtalkin', say wallahi to me, and on god I'm a liar about it  
And I ain't gon' cry about it

**[Chorus: PnB Rock, A Boogie wit da Hoodie & Both]**

Finally got my heart broke, yeah, I needed that  
Took a little while to get the pieces back  
Went and fucked a rapper, couldn't believe in that  
Stabbed me in my back, you had me bleedin' bad  
Did it to myself, I guess it's all my fault  
'Cause I was out here cheatin' when you played your part  
I know I'm the reason that you act like that  
But shawty, you won't get a nigga back like that

**[Outro: A Boogie wit da Hoodie]**

But shawty, you won't get a nigga back like that  
Oh, no
