## "No Sleep"

Where we goin'?  
Where we goin'? Nigga  
Slimeto  
I don't even feel the same no more  
Like, I don't even feel big  
I don't even feel like nobody to be honest (No)  
I don't know who the fuck I am or what I'm doin'

Highschool, knew the kids, they know I was wearin' the same uniform  
back to back

Grandma left me as a kid, time to man up, she ain't never comin' back  
On the road doin' shows, the murder came, it was history after that  
My sister sayin', "Leave me 'lone," I'm in her room tryna make her listen  
to me rap

No clues, young fool, sittin' in front the T.V. see my daddy on the news  
Thirteen years old shootin' dice with unc', taught me for to win, never  
want to lose

Young as Hell, feelin' like I'm goin' under, sat in juvenile, never left my  
room

Me and DDawg, we gon' run through that North, he be strapped with a  
Glock

And, I know what he do

Never care what they thought, had to run when that burner let off  
Before I made seventeen, been in plenty shootouts  
Mama said not to leave the house  
Fallin' in love, that was my biggest mistake and I wish that it never came  
'round

I'm movin' state to state, go on the stage, the crowd rock out  
And they screamin' loud, I'm sayin' in my head

No sleep, thank you for seein' me  
So much it mean, that I can live this dream  
Prayed all night, I fiend  
For my whole life, I sing

Cold killers, drug dealers  
People schemin'  
He done murdered his own brother, I done seen it  
He stealin' from his own father, mane that nigga ain't got no soul  
That girl ain't close to loyal, she fuck niggas that want me gone

No sleep, thank you for seein' me  
So much it mean, that I can live this dream  
Prayed all night, I fiend  
For my whole life, I sing
