"Perc 10"

Yeah

Uh-uh, uh

Uh-uh, uh

(Playboy on this bitch, but he ain't playin', though)

(Uh, what she doin' with her body?)

She just wanna rock her body all day

My heart cherish, please don't sell it or try hide it

Your love take me the highest, narcotics, I'm tryna top it

Police tryna stop it, he fresher than a motherfucker

But he ain't been doin' nothin' wrong, the only thing, he totin' that thirty
burner

This for my brothers who in the slums everyday

Tryna prepare for pain 'cause more heart break is on the way

Up in public, we get it on smokin', shootin' heroine broad day

In the heart of Atlanta, Baba screamin', "4K Trey" (4K Trey)

Big money in (Woah), she just took a ten on the way (On the way)

Them Perkies poppin' out her body, I'm on trey (I'm on three)

And my pocket money hard like some clay (I'm just on)

And you know we rollin' hard, let it spray

Thuggin' these hoes but I guess my heart decided

I just wan' be with you, 'cause really I been out here wildin'
Steady been out here slidin', catch him, put them hallows in his body
Livin' grimy, burglaries bein' committed by his partners
Fuck what they say, I'm askin' you, baby, is it really love?
All my niggas, they right outside, I'm goin' out all out behind you
Tote that Glock, I been moppin' with my thugs
I'm gone off them Xans, I couldn't remind you (Let's go), oh, I had to find
you

Like where you been at? In that North, I'm pluggin' out the socket
Right outside the house, got youngins itchin', tryna blow they rocket
Smokers tryna come and jump the fences, told my niggas, "Stop it"
Granny on the porch, so switch yo' swag 'cause you know she watchin'

My nigga pulled up with the bottle
I just took a ten, took a ten
Xannies in my body fo' I even put one in (Yeah)
Feelin' on her body be like rocky, she might win (Ooh, she might win)
I know that she scared to either likin' all my tens
Like, ooh, Klonopins, yeah, choppas and FNs (And FNs)
We got fans, we got Hellcats and some bands (Skrrt)
My eye spy, ratchet baddie in my lens
She from the hood so I'm finna turn her in

Thuggin' these hoes but I guess my heart decided
I just wan' be with you, 'cause really I been out here wildin'
Steady been out here slidin', catch him, put them hallows in his body
Livin' grimy, burglaries bein' committed by his partners

My nigga pulled up with the bottle
I just took a ten, took a ten
Xannies in my body fo' I even put one in (Ayy, put one in, in)
Feelin' on her body be like rocky, she might win (Let's go, go)
I know that she scared to even likin' all my friends

Like, ooh, Klonopin

Woo, Klonopin

Like, ooh, Klonopin

Klonopin

I said, like, "Klonopins"

Klonopin, I tell like, "Klonopin"

Yeah, islands
