# "Respect Mines"

**[Intro]**
Hahaha, this a billion-dollar business, baby
Let's get to it

**[Verse 1]**
Legacy rap, this the era we back, it's facts
Flooded flower set, rollie seventy racks
Drop-top 'vette vath ebony black, the sos'
Certified with celebrity stacks
My pedigree acts, still affili', allegedly that
Still willy, shit could never be wack, I'm worldwide with it
In the wings outside with it
Still a king, even off my dean is how I did it
Street thots at school, I keep rockin it
That dude thats beatboxin is no fool, I need options
From G-shockin', back in the P's poppin
Boppin' in V's, hop in the ride, E knockin'
Hear the party, Offset the Cardi
Only flooded the bezel, hopping out the 'Rari
Life foot on the pedal, smellin like bogarli
I'm God to these devils, be damned if I let 'em starve me

**[Interlude]**
Mmh-mmh, nah
Keep goin'

**[Verse 2]**
I'm 'preme from fort green, Jazz from outta queens
Don't spaz or make a scene, never brag, it ain't my thing
Used to sling, getting cash at seventeen
Carats in every ring, no habits, I kept it clean
Self-esteem, if I said it then why sweat it?
Champagne berries, the shit you gotta inherit
On my own merit I got mine, got signed
For seven digits, I got a line, and lotta shine
Stayed shit, from day one was told
The goal was to get it and stay young, don't fold
Maintain, mind your own, find a zone
And learn to spend time alone, that's when you made it
I move how the hustlers play it, it's just a flip
Never got caught in a script, or jumped ship
The difference is, this is legit
One hit overnight, you right in the mix

**[Outro]**
Y'all gon' respect mines
