## "Stand On Bidness"

(Haze, call me back)

Ayy, hmm, mm, stand on business, yeah

Time to stand on business, ayy

(Suave on the track, it's a banger)

I got a fetish, I like nice cars and bust down Audemars (Phew)

The key to my success was slingin' P's and swipin' cards (Phew)

I'm never satisfied, could ball today and gone tomorrow

Repercussions from my savage like I shouldn't have got involved

How you signed to a major label still duckin' the law? (Phew)

Bad habits, next check, I might invest in a mall (Uh)

Jab at 'em, he gon' take your soul, send you to Mars (Phew)

Get up on my level, Tafia always raising the bar (Let's go)

Yeah, I don't play no games, I play wit' money (Uh)

She won't ask for nothin', if she real, she know it's comin' (Uh-huh)

Ran through half a mill', the other half, they took it from me (Man, fuck  
the cops)

Stood on everything I said, how can you not love me? (I said that)

Stood on everything I said, I can't break my promise (Phew)

5 star for lunch, baby, no mo' Benihanas, ayy (Uh-huh)

Dirty Sprite fell on my lap, he swapped out for another one (Phew)

Suited driver came wit' the caddy, sticks all in the other one (Whew)

Let's go, stand on business (Uh), time to stand on business (Uh-huh)  
You just a witness, uh, we don't need no dealings (Oh, not at all)  
Cut through the trenches, extender on them glizzies (Uh)  
Get out ya feelings, baby girl, you know I'm busy (Let's go)

Don't ask me how I get through it, I get to it (Uh)  
Real gangsta, I won't ever tell it if I did do it (Shh)  
Keep away from niggas that be tellin' shit for likes (Uh)  
Camera ass nigga tryna get some clout for hype (Hmm)  
If I take your life, it's for respect, not just for stripes (Phew)  
Ran up a Lamborghini Urus in just twenty nights (Yeah)  
Quit talkin', let me hear that kitty purrin' if it's mines (Phew)  
She know who the realist trapper in the 305 (Yeah, that's me)  
Keep it simple, lil' nigga, Tafia might become yo' killer (Uh)  
My young niggas turn to dumb niggas for that skrilla (Uh-huh)  
If I'm with ya, it's like God with ya, you protected (Phew)  
Just say a prayer, we gon' use them switches, hope you ready (You  
ready?)

Stood on everything I said, I can't break my promise (Phew)  
5 star for lunch, baby, no mo' Benihanas, ayy (Uh-huh)  
Dirty Sprite fell on my lap, he swapped out for another one (Phew)  
Suited driver came wit' the caddy, sticks all in the other one (Whew)  
Let's go, stand on business (Uh), time to stand on business (Uh-huh)  
You just a witness, uh, we don't need no dealings (Oh, not at all)  
Cut through the trenches, extender on them glizzies (Uh)  
Get out ya feelings, baby girl, you know I'm busy (Let's go)
