"Hear You"

I just wanna hear you, uh

I just wanna hear you, uh

I just wanna hear you, uh

See you in the rear view mirror

You wear everything Amir'

I'm rocking Martin

I park in the gas station in Celine

These niggas be copping on me and they memein'

Bitch, I'm a P, I'm hanging up my peace men

Talk to the plug every morning, I need that

When we get to sprayin', you don't want to feed that

Run through upon nigga, through my nemesis

Into the halls, into the halls, into the halls

I grab me a milli' watch on the way home

Answer the phone had to, hold up, hold on hold up

Bad bitch gon' suck me while in the Motorola

Doc Martin got you standin' on your toes

I got real partners, they never letting go

Running through problems, I never ever fold

Nigga you know

Smother me with your hand up, baby high as my knees with her head up

Water comin' to my feet, I'ma pedal

I'm never a hassle

Dumb boy, the sack on my back, make it backflip

Countin' this money now I got a rash

Ten percent tint on the whip and it's matte

I found her off the rack, give me that

My niggas came off the line, through the [?] stand

Oh, my lips and let's make love

Hey, hey

My lips and let's make love, hey

Hey, hey, stand up

I just wanna hear you, uh

I just wanna hear you, uh

I just wanna hear you, uh

See you in the rear view mirror

You wear everything Amir'

I'm rocking Martin

I just wanna-

I just wanna-

I just wanna hear you, uh

Hey
