"How It Feels"

I just put a Mansory kit on top of a Lamb' truck
I know how it feels to stay down and run you some bands up
Hundred grand on me, it's hard holdin' my pants up
TRX, the Hellcat motor inside a RAM truck
Real ones like me hard to come by, it's only a handful
Ain't no money in the world that make me give my mans up
I know how it feel to think everybody against you
I know how it feel to watch bullets go through a windshield
I know how it feel when you try your best to be real
I know how it feel when you think no one understands you
I know how it feel when the one you love gettin' ran through
I know how it feel, I done really cut off my mans too
I know how it feel when you broke, and them bills past due
Oh, you thought this sh- was a joke? We on your a- too
I can't give my energy to anybody
I'm a billionaire in the making, I promise I'ma get one

Lil' b- tried to chase me, I had to stiff-arm her
Only had a couple dollars, I was still gettin' fresh
I ain't tryna say I'm cocky, but I feel I'm the best
Every time, I want the maximum, ain't takin' nothin' less
I've been back-to-back jets, but I still fly Delta
Thick lil' sh-, but she can fit in my schedule
Yeah, I'm always on the go, but I make time for that a-
Know I got a lot, but I'm on the grind, tryna get marriage
I know I be calm, but I'm nowhere near average
A hundred million dollars cold cash gettin' buried
Lookin' at the man I'm becomin', it's gettin' scary
All these bitches fuckin' whoever, who gettin' married?
I ain't tryna go back to nothin', I'm tryna have sh-
I be quick to pick up that blicky, I got a bad wrist
I know how it feel to think everybody against you
I know how it feel to watch bullets go through a windshield
I know how it feel when you try your best to be real
I know how it feel when you think no one understands you
I know how it feel when the one you love gettin' ran through
I know how it feel, I done really cut off my mans too
