## "In a Minute"

Damn Kai, you going crazy  
I be in the loop, she be in a group (yeah)  
Brodie want her friend, throw 'em alley-oop (yeah)  
Turned somethin' to nothin', bruh, I'm livin' proof  
How can I lose when we the who's who's?  
Still runnin' 'round with Mohawk, jet ready, pack the Goyard  
People probably think I show off, I ain't even give it yet  
Runnin' up a silly check, stayin' off the internet  
Share the stage with Billie Eilish, turnt at any given time  
Personal partners pillow talkin' 'cause I got rich without 'em  
Only thing they should be sayin' is, "Baby keep it solid"  
We ain't even deep as we used to be, this shit slick, divided  
Bruh ain't got no hustle or nothin', so he gon' stick to violence  
I be known to run down, I'm dialed in, so I can't speak about it  
She know I'm a gangster, she love me, I bring the freak up out her  
Can't play with me, you know I come trim, I'm in a different league

I'm tired of showin' what I can get done, what you gon' do for me?  
40 thousand miles up in the air, only time I get some Z's  
Full-court press, foot on they neck and I can't let 'em breathe  
Blood, sweat, and tears come with this check, it ain't nowhere near easy  
Had to fall back, you know how that go, we only speakin' briefly  
Hope I'm not too much to handle, city nigga from Atlanta  
I spent my last check on ammo, this is not a regular Lambo  
Hundred thousand dollars kit could've put down on another Lambo  
Don't be in the mix, I built this shit forever havin' say so  
This shit gon' get serious about my money, this ain't no fuckin' Play-Doh  
Brodie down for double homicide, I try to tell him, "Lay low"  
C don't like to drive, but he spin good, I'm on the way to Clayco  
AK-47s in the spots before they made the Draco  
I'm just tryna ball and live, hundred mill', I'm calling dibs  
I'm the boss, pay all the bills, I'm the golden child for real  
Go off in this bitch, I will, I been on my grind for years  
And I'm out here grinding still, I need equity to sign the deal  
I'm just tryna ball and live, hundred mill', I'm calling dibs  
I'm the boss, pay all the bills, I'm the golden child for real  
Go off in this bitch, I will, I been on my grind for years  
And I'm out here grinding still, I need equity to sign the deal  
Overbuying cars, I snatch the Brabus just for motivation  
Shootout at the spot today, tomorrow, we in a new location

Free all of the guys, I hope y'all beat the case or get probation  
Stash it at my mama house, four hundred bands in the ventilation  
Now look how I'm living, I bought a house for the money to stay at  
Right when niggas think that I got soft, I'ma pull up and spray at  
Living like a don, might smoke a blunt in the back of the Maybach  
Pull up like your mama with the switch, why the fuck would you say that?  
You can do it first, I'ma do it worse, gotta double the payback  
Never take it personal, show no mercy, bruh taught me that way back  
Condo to get off, I was always taught, "Don't tell hoes where you stay at"  
Keep a stash house, you can't take nothing to the spot where you lay at  
Never be a bother, if you off me, no problem, just say that  
Never runnin' off, so if I owe you, I got you, I'll pay that  
Give this shit my all, so when I'm old I can chill and just lay back  
Really from the bottom so the trenches is where I feel safe at  
I'm just tryna ball and live, hundred mill', I'm calling dibs  
I'm the boss, pay all the bills, I'm the golden child for real  
Go off in this bitch, I will, I been on my grind for years  
And I'm out here grinding still, I need equity to sign the deal  
I'm just tryna ball and live, hundred mill', I'm calling dibs  
I'm the boss, pay all the bills, I'm the golden child for real  
Go off in this bitch, I will, I been on my grind for years  
And I'm out here grinding still, I need equity to sign the deal
