"Kiss You "

Kiss you, kiss you, kiss you, kiss you

This is how it always goes

Imagining you're here without your clothes

I'm discovering that too much conversation can make me sick (ew)

I hope you know that you're so slow

Even when you get the green light, though

Do you need a map in some direction, to find my lips?

Oh darling

I wanna make the first move, but can I leave that up to you?

'Cause I'm starving (so, so starving)

And all this talking is real cute

But there's something else I'd rather do

I just wanna kiss you

'Cause whenever you're gone, I miss you

Yeah, you know what I want, so what's the issue?

What are we runnin' from?

I don't wanna make the first move

But all I really wanna do is

Kiss you

'Cause whenever you're gone, I miss you

Yeah, you know what I want, so what's the issue?

What are we runnin' from?

I don't wanna make the first move

But all I really wanna do is

Kiss you for so many hours

You don't need to buy me flowers

Pucker up and then maybe save the planet and share a shower

What's your favorite superpower?

Do you prefer sweet or sour?

Actually, don't even answer

Kiss me now, take off your trousers (ah)

Did I say that out loud?

Sorry, just starin' at your mouth

Don't even know what you're talkin' about (wait)

What were you talkin' about?

Oh darling (oh, oh darling)

I wanna make the first move, but can I leave that up to you?

'Cause I'm starving (so, so starving)

And all this talking is real cute

But there's something else I'd rather do

I just wanna kiss you

'Cause whenever you're gone, I miss you

Yeah, you know what I want, so what's the issue?

What are we runnin' from?

I don't wanna make the first move

But all I really wanna do is

Kiss you

'Cause whenever you're gone, I miss you

Yeah, you know what I want, so what's the issue?

What are we runnin' from?

I don't wanna make the first move

But all I really wanna do is

Kiss you (la la la la)

I just wanna kiss you (la la la la)

I just wanna kiss you (la la la la)

I just wanna kiss you, kiss you, yeah (la la la la)

Kiss you (kiss you)

Kiss you (kiss you)

Kiss you (kiss you)

I don't wanna make the first move

But all I really wanna do is

Kiss you

'Cause whenever you're gone, I miss you
Yeah, you know what I want, so what's the issue?
What are we runnin' from?
I don't wanna make the first move
But all I really wanna do is
Kiss you
