"Touchable"

It's Remble

Will he perform when he has money right in front of him?

Run up on that boy and kill his cousin right in front of him

I just tapped his shoulder so I know that he is touchable

Put 30 in my chop, and then I turned him to a huxtable

Came a long way from pre-K and eating lunchables

I just took your life and as you know it's unrefundable

When you up the Smith and, you should never feel uncomfortable

Don't waste any time bro, just turn him to a vegetable

Do the job right, or you are surely going federal

Go knock on some wood, but I just feel I did incredible

How many shots were fired? I don't know but more than several

I thought it was just him, I can't believe it was a bunch of 'em

Brodie did 'em dirty, hit him up and now I'm stomping 'em

I know a lot of demons, I can summon any one of 'em

Bodies holding bodies, it was as if they were cuddling

Will he perform when he has money right in front of him?

Run up on that boy and kill his cousin right in front of him

I just tapped his shoulder so I know that he is touchable

Put thirty in my chop, and then I turned him to a huxtable

Came a long way from pre-K and eating lunchables

I just took your life and as you know it's unrefundable

When you up the Smith and you should never feel uncomfortable

I was watching him outside his house, he's getting comfortable

I was tryna make sure that my Glock was undiscoverable

You were popping it and now just look at what we've done to you

Peter Piper picked a pack of bullets now they're touching you

I was coaching up a team of shottas, now they're rushing you

I just threw your life inside a toilet, now I'm flushing you

If I think you're wronged one of my homies, I will punish you

Will he perform when he has money right in front of him?

Run up on that boy and kill his cousin right in front of him

I just tapped his shoulder so I know that he is touchable

Put 30 in my chop, and then I turned him to a huxtable

Came a long way from pre-K and eating lunchables

I just took your life and as you know it's unrefundable

When you up the Smith and you should never feel uncomfortable

Will he perform when he has money right in front of him?

Will he perform when he has money right in front of him?

(Will he perform when he has money right in front of him?)
