"Under Construction"

I know how it feel when you got nothin'

I know how it feel when you got nothin'

When it feel like ya whole life is in disfunction

She in the gym, she workin' out, she under construction

You tryna make a million dollars, I got the instructions

Yeah, fix yo' credit, I got methods

Shortin' durin' market corrections

Different lenders I'm in heaven

Sober excuses for my beverage

Ridin' with a loaded weapon

Yeah, when them walls fall in will you be there?

Better stack them racks up better prepare

Okay, I'm just tryna accomplish goals

Bank account on super swole

I'm just tryna purchase homes

I'm with my family, right or wrong
I swear lil' mama turn me on
Plain Jane AP, corporate shit, I gave you niggas the blueprint
But they wasn't listenin', I'm the one they mentionin'
I'm the one they talk about
Indie, I took the longest route
Last week I took the harder route
Them other niggas cannot survive it
They talkin' cars but all my niggas is ridin'
She want dick then I'ma come and supply it
She want safety, I'ma come and provide it
They put they hands on her, somebody is dyin'
They see I'm on some different shit, I'm separatin' myself
I'm tryna get these millions so I'm educatin' myself
Tryna stop seein' these ghosts, so I medicated myself
They don't understand the shit that I been through
Had to go get down and dirty when rent due
All this fuckin' dirty money, I need to clean it
It's a war inside these streets that'll never end
My daughter in Christian Dior, I told her to say, "Amen"
I know how it feel when you got nothin'
When it feel like ya whole life is in disfunction
She in the gym, she workin' out, she under construction

You tryna make a million dollars, I got the instructions

I know how it feel when you got nothin'

When it feel like ya whole life is in disfunction

She in the gym, she workin' out, she under construction

You tryna make a million dollars, I got the instructions
