"What's My Name "

Say my name, say my name

If you ain't running game

Say my name, say my name

Better say

Fuck a partition, come ride with the boss in the backseat, uh (huh)

A lot on my mind, I don't wanna think, she come and relax me (huh)

Diving at the water, breaststroke, tell me your thoughts, Peep Show

Now on a mission, don't stop, respectfully (come on), so she better (uh)

Say my name

What's my name?

What's my name?

Huh, yeah, look

What's my name?

Say my name

What's my name?

Yeah, look

I know you in love with me, that's cool

She say my name and she getting a tattoo

We should've been here together, it's past due

Now, let's go have some fun in this backroom

Man, that ex nigga boring, that's bad news

She ain't never come out, he had mad rules

I can buy you Chanel and mad shoes

I can match with Dior and the bags too (uh)

And you can tell me what you like, ha (uh)

And I can take you for the night (yeah)

I could teach you lessons you ain't never know

And you could add it to your life (uh)

I could boss you up, baby, huh

I'm here to boss you up, baby (I'm here to boss you up, baby)

I can tell you don't know too much

'Cause you ain't been told enough, baby (uh)

Fuck a partition, come ride with the boss in the backseat, uh

A lot on my mind, I don't wanna think, she come and relax me, huh

Diving at the water, breaststroke, tell me your thoughts, Peep Show

Now on a mission, don't stop, respectfully (come on), so she better (uh)

Say my name

What's my name?

What's my name?

Huh, yeah, look

What's my name?

Say my name

What's my name?

If you wanna hear me say your name, gotta make me say your name
(name)

Pull up on you in a Range, show you a couple of things (things)

I love me a thug nigga, might let you shoot up the club, nigga

Ooh, wee, just so good, I'ma make you fall in love with it

Take me to Louis (ooh), buy me some Gucci (ooh)

Diamonds and rubies, might let you feel on my booty

We'll make a movie (uh-huh), your ex mad, she a groupie (uh-huh)

(Baby, go take off them Ksubis) know you wanna hop inside the jacuzzi

Say my name

What's my name?

What's (say) my name?

Huh, yeah, look

What's my name?

Say my name (say my name, uh)

What's my name? (Yeah, let's go)

You be all in my head and be stressing me out

Talk too much, you keep running your mouth (no more talking)

Way too lit to get caught up
You know I'm in and I'm all out
You can take me to the room
You know I wanna go up and down on you
He said, "Bae, you a freak"
I said, "Bae, you a freak"
I said, "Ooh, let me come and link with you", call you when I'm in the mood
I'm coming through, put the pressure on you
Just tell me what you wanna do
No more waiting, pull you in and out of patience
I wanna come through and get naked
Know I'm your favorite
This shit gets so-, it sound like, "Grr, baow"
Fuck a partition, come ride with the boss in the backseat, uh
A lot on my mind, I don't wanna think, she come and relax me, huh
Diving at the water, breaststroke, tell me your thoughts, Peep Show
Now on a mission, don't stop, respectfully (come on), so she better
Say my name
What's my name?
What's (say) my name?
Huh, yeah, look
What's my name?
Say my name

What's my name?
