### "When Sparks Fly"

It's been two years, I keep calling  
I'm standing here and I ain't got you  
As we lay here, lovers in arms  
I can feel your fear, can this love be true?  
Come on, lift me up, love, I keep falling  
I'm losing faith 'cause you keep stalling  
Lift me up, love, I keep falling  
I'm losing faith 'cause you keep stalling  
She said, "Baby, keep me closely"  
Love it when you hold me  
Know that I'm a real one, I don't do no ghostin'  
I know that you love me, you don't gotta show me  
Off to the world, please, hide me from the police  
Everywhere you go, we together, inseparable  
You know I'm down for whatever, protective of you

I don't wanna use protection with you  
But the glove'll keep you safe if you ever get loose  
Never put you in a jam, hold whatever for you  
When you first shot your shot, I knew you would be the one to hit the spot  
Only you can make it clap for the homies I am not  
On the late nights, me and you, circling the block  
Tryna make it pop  
Put that pussy nigga 'cross the street from Cherry Park  
Hope we don't get caught  
Don't you break my heart  
Love how you illuminate my thoughts  
It's been two years, I keep calling  
I'm standing here and I ain't got you  
As we lay here, lovers in arms  
I can feel your fear, can this love be true?  
Come on, lift me up, love, I keep falling  
I'm losing faith 'cause you keep stalling  
Lift me up, love, I keep falling  
I'm losing faith 'cause you keep stalling  
Damn, can't believe they took you from me  
Kickin' in your front door, lookin' for me  
Hit me in our secret place  
Nothing I could do for you but sit and wait

## Contemplate

Did we leave a trail? Did we make mistakes?

Can't drop on your bail, can't check on your case

Know that you won't tell, that's why I'm afraid

You'll probably never get to see the light of day

I'm ashamed to say I think I hate you now

We shoulda took 'em on a chase 'cause I can't save you now

At least give me a chance to try to lay 'em down

Is you trippin'? You forgettin' now we made these vows?

Still here I am, waiting 'round

Dreaming that you comin' home, right your wrongs, take me out

I can't wait until you bust it down

Probably go a hunnid rounds

I keep calling

I keep calling (oh, ooh)

I keep calling

I keep calling

I keep calling (oh, ooh)

I keep calling

"We got together, we got in a lil' somethin'

But he's in jail right now

For something that he had no business in doin'"

"What did he do?"

"They said he killed somebody"
