"Fingers Crossed"

Introduced me to your family
Watched my favorite shows on your TV
Made me breakfast in the morning
When you got home from work

Making plans to travel 'round the world
Said we'd always put each other first
All love songs we used to play to
Funny, now I hate you

Now I remember when you'd call me late at night

I gave you my hours and advice
Just tryna fix you and all your daddy issues
But now I don't even miss you anymore

So I, I want all the tears back that I cried
All the hours spent giving advice on how to write your songs

All you did was prove me wrong
When you said you love me
While you must've had your fingers crossed

Should've paid attention to my friends
Telling me how bad it's gonna end
Always giving their opinions
Now I wish I would have listened

I could say, "I'm sorry", but I'm not
You don't deserve the one thing that you lost

Now I remember when you'd call me late at night

And I gave you my hours and advice
Just tryna fix you and all your daddy issues
But now I don't even miss you anymore

So I, I want all the tears back that I cried
All the hours spent giving advice on how to write your songs

All you did was prove me wrong
When you said you love me

While you must've had your fingers crossed

(Oh-oh, oh-oh) your fingers crossed

(Oh-oh, oh-oh) your fingers crossed

(Oh-oh, oh-oh) oh, when you said you love me

While you must've had your fingers crossed

So I, I want all the tears back that I cried

All the hours spent giving advice on how to write your songs

All you did was prove me wrong

Wish you said you loved me

When you didn't have your fingers crossed
