## "Lennon (Freestyle)"

You say it's love, but you still shootin'  
They say they love me but do me like Lennon  
'Member John got baptised pon a Volkswagen  
Defend myself in ways that I can never mention  
Brodi saved his skin and now he's in detention  
He was twenty-one, now twenty-six, still patient  
Streamin' free my codie till the day they free him  
Submarine lock deep ina di belly  
I got one thought deep ina dis heady  
Oh, how I long for yesterday like Paul McCartney  
Like I'm Ringo Starr, I beat it with a sticky  
Let it be any kinda rain, we won't be drownin'  
Still ridin' any kinda speed, will not catch up to king  
I gave peace a chance, they always try divide us  
Here comes the sun, we lost a few at sundown  
I miss yesterday, that's why we came together

Held each other, ate from one plate  
We all defeat the hunger  
And we with it, bitch, we ride out  
Got my killy locked up till he gone, we call this lifer  
The Ends full of witches, cobras, they want my light out  
Want my life out  
But can't hack it if I blacked out  
When I had nothing, I threw myself deep in the ocean  
When my nanny died, mummy depressed, I felt so hopeless  
I disappeared  
OT cakin' it, lookin' all homeless  
Struggles what they gave her, I knew one day she'd be shinin'  
Hella pain, I feel so painless  
I ain't felt pain when they caught me with a less  
I ain't felt pain when they shot me with a careless  
I find it hard to weep because my mind cannot believe yet  
I miss my bro, AP, what they sayin', I can't believe it  
When dem pussy killed Emmanuel, I felt like there's a curse on me  
When I'm reminiscin', I find it hard to see straight  
My heart's been pure, my killy, I don't need no clean slate  
(I don't need no clean slate)  
When I felt broken, I ain't broke  
When evil try headlock me, I ain't choke

When I hit the jungle, I said I'm no criminal  
Fuck the law, they could never make me feel I am  
(I say, when I hit the jungle, I said I'm no criminal)  
(Fuck the law, they could never make me feel I am)
