"React"

You ain't even by my side, yeah

Feel the power in your eyes, eyes

Must be voodoo you're doin', it's pulling me back

Just a sip of your potion and my body reacts

Feel the chemicals moving, it's a matter of fact

Every time that you touch me, my body reacts, reacts, reacts

My body reacts, reacts, reacts

My body reacts, reacts, reacts

My body reacts, reacts, reacts

My body reacts

Must be voodoo you're doin', it's pulling me back

Just a sip of your potion and my body reacts

Feel the chemicals moving, it's a matter of fact

Every time that you touch me, my body reacts, reacts, reacts

My body reacts, reacts, reacts

My body reacts, reacts, reacts

My body reacts, reacts, reacts
Glad my body's hypnotised, yeah
You take me to paradise
There's something about you, love that magic
Makes me come alive, makes me come alive
Head on fire, red-hot flashes
Brings me back to life, life
Must be voodoo you're doin', it's pulling me back
Just a sip of your potion and my body reacts
Feel the chemicals moving, it's a matter of fact
Every time that you touch me, my body reacts, reacts, reacts
My body reacts, reacts, reacts
My body reacts, reacts, reacts
My body reacts, reacts, reacts
Think it's time that I share my confession
You've been stuck in my head, my obsession, oh
If I'm the fire, you're gasoline
So pour it over me, oh yeah
Must be voodoo you're doin', it's pulling me back
Just a sip of your potion and my body reacts
Feel the chemicals moving, it's a matter of fact
Every time that you touch me, my body reacts, reacts, reacts
My body reacts, reacts, reacts

My body reacts, reacts, reacts

My body reacts, reacts, reacts

My body reacts
