Red Flags - Mimi Webb Lyrics

"Red Flags"

Well, the first time we went out

You said you'd never settle down

Without a doubt (Doubt)

You said your ex still comes around

I found her things around your house

What's that about? ('Bout)

Don't take a genius, yeah, I'll see it

Even my friends hate that I'm with you (Hate that I'm with you)

A million reasons, should be leaving

I need more hands to count all the issues

But I keep on runnin' through these red flags

I'll blame myself 'cause I'll know it's bad

But I keep on runnin' through these red flags

I'll see the signs, but I'll still come back

I keep on runnin' through them, when ya

Touching my body, I listen to nobody and

Nobody can stop me

I keep on runnin' through these red flags

I'll see the signs, but I'll still come back

So I keep on runnin'

Living at your parent's place

You said you'd never move away

Guess that's okay (Okay)

The dinner bill I had to pay

'Cause with you, I like the taste

Just keep the change (Change)

Don't take a genius, yeah, I'll see it

Even my friends hate that I'm with you (Hate that I'm with you)

A million reasons, should be leaving

I need more hands to count all the issues

You might also like

But I keep on runnin' through these red flags

I'll blame myself 'cause I'll know it's bad

But I keep on runnin' through these red flags

I'll see the signs, but I'll still come back

I keep on runnin' through them, when ya

Touching my body, I listen to nobody and

Nobody can stop me

I keep on runnin' through these red flags

I'll see the signs, but I'll still come back

So I keep on runnin'

Mm (Red flags)

So I keep on runnin' through these red flags

Mm (Red flags)

So I keep on runnin'
