"Somewhere in Between"

Put me inside a box

Breathing heavy cuz it's not big enough

Everybody just talks

Stop wasting time cuz I'm taking off my cuffs

Stay the same but change, why is it not making sense?

Confusion in my head I didn't know who I am

The one who always felt like she is walking on broken glass

I stay the same won't change

I'm sick of playing these games

Got clarity inside of me I know who I am

No matter what you saw I know

My heart always stayed the same

Sometimes I wanna let go, let go
Start over from the get go, get go
The role I've played I've outgrown, outgrown
I'm somewhere in between
Somewhere in between

Sometimes I wanna let go, let go
Start over from the get go, get go
Don't care as long as I know, I know
I'm somewhere in between
Somewhere in between

Gotta believe me I've tried (believe me I tried)
Good at putting my feelings to the side

Got my eyes open wide (got my eyes open wide)
A million colors and not just black and white

Stay the same but change, why is it not making sense?

Confusion in my head I didn't know who I am
The one who always felt like she is walking on broken glass

I stay the same won't change
I'm sick of playing these games
Got clarity inside of me I know who I am
No matter what you saw I know
My heart always stayed the same

Sometimes I wanna let go, let go
Start over from the get go, get go
The role I've played I've outgrown, outgrown
I'm somewhere in between
Somewhere in between

Sometimes I wanna let go, let go
Start over from the get go, get go
Don't care as long as I know, I know
I'm somewhere in between
Somewhere in between (between)

Sometimes I wanna let go, let go
Start over from the get go, get go
Don't care as long as I know, I know
I'm somewhere in between
Somewhere in between
