## "State Of Unrest"

Satellite transmission

Spit spores into the atmosphere

Signal wave distortion

Corrupted files reengineered

Digital conception

Electric God's eye overseer

Redacted mass deception

Fractured glowing glass veneer

State of unrest, witness what you've created

Pathogenic, unabated

We are chaos detonated

State of unrest, witness what you've created

We are chaos detonated

Intravenous network

Plunger push keep us sedate

Data mass collector

Pull the plug and wipe the slate

Executive defector

Fear and hate indoctrinate

Globally infected

Inseminated mass mutate

State of unrest, witness what you've created

Pathogenic, unabated

We are chaos detonated

State of unrest, witness what you've created

We are chaos detonated

We are chaos detonated

We are chaos detonated

We are chaos detonated

We are chaos detonated
