"Thought About That"

I like the bed to myself and

I like to hammer, no helpin'

Don't need nobody next to me

I love the space in the shower

Hang out with me for an hour

I bring myself down to my knees

There was a time

I looked into the wrong eyes

Now I realise

I was here all along

You should have thought about that before you broke my heart

Now you're seeing me out, not missing you at all

But, you wish you could take it all back, and damn, that must be hard

Should have thought about that before you broke my heart, my heart, my heart

Ah, did you think I'd hate dancing alone?

Ah, did you think I'd stay home?

You should have thought about that before you broke my heart

Now, I won't ever look back

You should've thought about that

This body drippin' like diamonds

I set 'em off like a siren

I always gotta stop and stare (stop and stare)

They say, no man is an island

But I do it all without trying (uh-oh)

A goddess, no one can compare

There was a time

I looked into the wrong eyes

Now I realise

I was here all along

You should have thought about that before you broke my heart

Now you're seeing me out, not missing you at all

But you wish you could take it all back, and damn, that must be hard

Should have thought about that before you broke my heart, my heart, my
heart

Ah, did you think I'd hate dancing alone?

Ah, did you think I'd stay home?

You should have thought about that before you broke my heart

Now, I won't ever look back

You should've thought about that

I'm not crying

I'm not sad that you're gone

Not trying

I can get what I want

No lying

So far past moving on, oh-oh

I'm out dancing

You're just a name on my phone

Won't answer

I'm better off on my own

But tonight, who said that I'm sleeping alone?

You should have thought about that before you broke my heart

Now, you're seeing me out, not missing you at all

But you wish you could take it all back, and damn, that must be hard (oh)

You should have thought about that before you broke my heart, my heart,
my heart

Oh, did you think I'd hate dancing alone?

Oh, did you think I'd stay home?

You should have thought about that before you broke my heart (my heart,
my heart)

Now, I won't ever look back

You should've thought about that
