## "Under the Weather"

Do you think at a certain point we all just  
Sink into the ground and are never heard from again?

Fuck, your hands are warm

Hah, I guess I just never noticed

I keep one in the chamber

I keep one for myself

I'll keep one of your pictures

So I'll see you in Hell

I just damaged my liver

Babe, you think you can help? (Help)

I keep going to liquor

You keep wishing me well (Hahaha)

Would it kill you just to smile?

At least once in a while?  
Leave your fucking town  
Live just in the now

Baby, I got a fever  
I'm not feeling too well  
I'm so under the weather  
I'm so under your spell

I got one in the chamber  
I got one for myself  
I got one of your pictures  
So I'll see you in Hell

Do you think it's gonna be like this forever?
