"This is what falling in love feels like"

Feel like sun on my skin

So this is love, I know it is

I know I sound super cliché

But you make me feel some type of way

This is falling, falling in love

Yeah

Ooh, yeah

I got a lot on my mind

Got some more on my plate

My baby got me looking forward to the end of the day

What you say? You and me?

Just forget about the past, throw it in the trash

What you say? You and me?

Live the life we never had, like we're never going back

Feel like sun on my skin

So this is love, I know it is

I know I sound super cliché

But you make me feel some type of way

This is falling, falling in love

I know I sound super cliché

But you make me feel some type of way

This is falling, falling in love...

Yeah

This is falling, falling in love

Ooh...

This is falling, falling in love
