"Who's In Your Head"

You moved like magic

You moved like time

You had your heart disguised

When you cry diamonds

Yeah, they shine

But they blind my eyes

And now

I hear the whispers every night

Even when I'm dreaming

Now tell me, baby, were you ever mine?

I wanna know who's in your head

Stealing your heart while I'm still bleeding

Who's in your bed?

Wrapped in your arms, while I ain't sleeping

Got lost in your halo, halo

I just wanna know

Now, who's in your head, in your head?

I wanna know who's in your head, in your head

You move like danger (huh)

But I don't mind (yeah, yeah)

The way you talking with your eyes, yeah (your eyes)

You leave me broken

And I can't lie (I can't lie)

It gets me every time

And now

I hear the whispers every night

Even when I'm dreaming

Now tell me, baby, were you ever mine?

I wanna know who's in your head

Stealing your heart while I'm still bleeding

Who's in your bed?

Wrapped in your arms, while I ain't sleeping

Got lost in your halo, halo

I just wanna know
Now who's in your head, in your head?
I wanna know who's in your head, in your head

You get me down
On my knees, on my knees, yeah
You drive me wild
When you want, when you want it
Oh, you get me down
On my knees, on my knees, yeah
'Cause every time I look into your eyes (look into your eyes)

I wanna know who's in your head
Stealing your heart while I'm still bleeding
Who's in your bed?
Wrapped in your arms, while I ain't sleeping
Got lost in your halo, halo
I just wanna know
Now who's in your head, in your head?
I wanna know who's in your head, in your head
