"Doesn't Really Matter"

Doesn't matter what your friends are telling you

Doesn't matter what my family's saying too

It just matters that I'm in love with you

It only matters that you love me too

It doesn't matter if they won't accept you

I'm accepting of you and the things you do

Just as long as it's you

Nobody but you, baby, baby

My love for you, unconditional love too

Gotta get up, get up, get up, get up, get up

And show you that it

Doesn't really matter what the eye is seeing

'Cause I'm in love with the inner being

Oh, doesn't really matter what they believe

What matters to me is you're in love with me

Doesn't really matter what the eye is seeing
'Cause I'm in love with the inner being
Oh, doesn't really matter what they believe
What matters to me is you're nutty, nutty, nutty for me

You're so kind

Just what I asked for, you're so loving and kind

And you're mine

And I can't believe you're mine

Doesn't matter if you're feeling insecure

Doesn't matter if you're feeling so unsure

'Cause I'll take away the doubt within your heart

And show that my love will never hurt or harm

Doesn't matter what the pain we go through

Doesn't matter if the money's gone too

Just as long as I'm with you

Nobody but you, baby, baby

Your love for me, unconditional I see

Gotta get up, get up, get up, get up, get up

And show you that it

Edit

Doesn't really matter what the eye is seeing

'Cause I'm in love with the inner being

Oh, doesn't really matter what they believe

What matters to me is you're in love with me

Doesn't really matter what the eye is seeing

'Cause I'm in love with your inner being

Oh, doesn't really matter what they believe

What matters to me is you're nutty, nutty, nutty for me

You're so kind

Oh, just what I asked for, you're so loving and kind

And you're mine

And I can't believe you're mine

Rock mix

'Cause you know I'm gonna love you

'Cause my love will always

My love for you, unconditional love too

Gotta get up, get up, get up, get up, get up

And show you that my love is true and it's just for you

Nutty, nutty, nutty, my love for you

I can't believe my dreams come true

I've finally found somebody whose heart is true

And best of all is you love me too (nutty, nutty, nutty for me)

Ohh-whoa, oh, oh, ohh

Oh, oh, ohh, oh, ohh-whoa (woo)

Ohh-whoa, oh, oh, ohh

Oh, oh, ohh, oh, ohh-whoa

Nutty, nutty, nutty, my love for you
I can't believe my dreams come true
I've finally found somebody whose heart is true
And best of all is you love me too
Nutty, nutty, nutty, my love for you
I can't believe my dreams come true
I've finally found somebody whose heart is true
And best of all is you're nutty, nutty, nutty for me
