"Number 1"

There's a million songs in my head

I could sing at the top of my lungs

There's a million melodies I can't forget

But you'll always be my number one

Another day

Another night gone

You know what they say

You'll find the right one

And every face just fades with the last song

But you'll always be my number one

Two shots to numb the feelings, still I'm under your control now

Tell me that you believe in us, ah-ah

I'm terrified that I'll be singin' all the words alone

'Cause you'll always be my number one

There's a million songs in my head

I could sing at the top of my lungs

There's a million melodies I can't forget

But you'll always be my number one
There's a million songs in my head
I could sing at the top of my lungs
There's a million melodies I can't forget
But you'll always be my number one
There's a million melodies I can't forget
But you'll always be my number one

I'm holdin' on

Until the last note

So you should know

I'll never let go

'Cause you're the one that I can't forget
I try to remember my heart and head
It always leads me back to you
There's a million songs in my head
I could sing at the top of my lungs
There's a million melodies I can't forget
But you'll always be my number one
There's a million songs in my head
I could sing at the top of my lungs
There's a million melodies I can't forget
But you'll always be my number one
There's a million melodies I can't forget

But you'll always be my number one
There's a million songs in my head
I could sing at the top of my lungs
There's a million melodies I can't forget
But you'll always be my number one
