"People, I've been sad"

It's true that people, I've been sad (People, I've been sad)

It's true that people, I've been gone (People, I've been gone)

It's true that people, I've been missing out (I've been missing out)

Missing out for way too long (People, I've been gone)

It's just that me, myself and I (Me, myself and I)

Been missing out for way too long (Out for way too long)

Taking 'cause I should have been missing out (Have been missing out)

Forsaking things for way too long (Didn't take for long)

If you (You)

Disappear, then I'm (Higher)

Disappearing too

You know the feeling (You know the feeling)

You know the feeling

If you (You)

Fall apart, then I'm (Higher)

Falling behind you

You know the feeling (You know the feeling)

You know the feeling

Les gens viennent et parlent mal (Ils parlent si mal)

Des sentiments qui pourtant comptent (Tellement ils comptent)

Prise au piège de quelque chose de fort (Quelque chose de fort)

Je n'ai décroché pour personne (Jamais pour personne)

If you (You)

Disappear, then I'm (Higher)

Disappearing too

You know the feeling (You know the feeling)

You know the feeling

If you (You)

Fall apart, then I'm (Higher)

Falling behind you

You know the feeling (You know the feeling)

You know the feeling

Adolescence contrariée par un millier de chardons morts

Marcher pieds nus sur du verre et maintenant tout est plus fort

Adolescence contrariée par un millier de remords

Maintenant quand je ressens quelque chose, tout est bien plus fort

Adolescence contrariée par un millier de chardons morts

Marcher pieds nus sur du verre et maintenant tout est plus fort

Adolescence contrariée par une solitude folle
Maintenant quand je suis dehors, le soleil me brûle encore

Ils parlent si mal

Tellement ils comptent (Oh, oh, oh)

Quelque chose de fort

Jamais pour personne (No, baby)

If you (You)

Disappear, then I (Higher)

You know the feeling (You know the feeling)

You know the feeling, oh, oh

If you (You)

Fall apart, then I (Higher)

You know the feeling (You know the feeling)

You know the feeling

If you disappear, then I (Higher)

You know the feeling (You know the feeling)

You know the feeling (Mmh)

If you (If you)

Fall apart, then I (Higher, higher)

You know the feeling (You know the feeling)

You know the feeling
