"Godspeed Hellbound"

Decisions that kill and bullets that fly
Lords of inferno that litter the sky
Shattered cries of the prayers never heard
War of the gods that drown out of words
As the world burns
Beneath the ground
As the world burns
Godspeed hellbound
The gears that grind shall never be still
The grudge that burns obsessed till it kills
Schizophrenic poems of death
Machine ever after that never rests
As the world burns
Beneath the ground
As the world burns

Godspeed hellbound

As the world burns

Beneath the ground

As the world burns

Godspeed hellbound

Crashing burning all shall fade

Dead and dying here to stay

Here to stay

Here to...

Against his maker and no regard for his fall

The winds of the west bow down to his call

Famine and murder reside from within

The vultures gather devouring sin

As the world burns

Beneath the ground

As the world burns

Godspeed hellbound

As the world burns

Beneath the ground

As the world burns

Godspeed hellbound
