"Marianas Trench"

This ship is sinking

Deeper and deeper

We've abandoned this vessel

And left the captain for dead

Waves thirst for our passing

Waves thirst for our passing

Prepare for the struggle

Prepare to engage

Our armor tight to the skin, this shield it bears His name

We are strapped to the teeth

But our swords are lodged tightly in our throats

We are going under

We cannot swim under these conditions

We're drowning quicker and quicker

We cannot swim, we cannot swim

We can't swim under these conditions

We are drowning quicker and quicker

We cannot swim, we cannot swim

Under these conditions

We have become what we have feared

(We have become what we have feared)

Being one with this world

We've become one with this world

Yeah

Pray for Heaven's titans

To rain down and spare us the pain

We're going under

We're going under

Pray for Heaven's titans

To rain down and spare us the pain

We're going under

We're going under

Under, under, under, under
