"My First Kiss"

My first kiss went a little like this

Mwah mwah and twist

Mwah mwah and twist

Well my first kiss went a little like this

And twist

And twist

I said no more teachers

And no more books

I got a kiss under the bleachers

Hoping that nobody looked

Lips like licorice

Tongue like candy

Excuse me miss but can I get you out your panties

In the back of the car,

on the way to the bar

I got you on my lips

(I got you on my lips)

At the foot of the stairs
With my fingers in your hair

Baby, this is it

She won't ever get enough
Once she gets a little touch

If I had it my way
You know that I'd make her say

Ooh, ooh

She won't ever get enough
Once she gets a little touch

If I had it my way
You know that I'd make her say

Ooh, ooh

My first kiss went a little like this

I said no more sailors and no more soldiers

With your name in a heart tattooed up on the shoulders

Your kiss is like whiskey, it gets me drunk

And I wake up in the morning with the taste of your tongue

In the back of the car on the way to the bar

I got you on my lips

(I got you on my lips)

At the foot of the stairs

With my fingers in your hair

Baby, this is it

She won't ever get enough

Once she gets a little touch

If I had it my way

You know that I'd make her say

Ooh, ooh

She won't ever get enough

Once she gets a little touch

If I had it my way

You know that I'd make her say

Ooh, ooh

My first kiss went a little like this

And twist, and twist

Well, my first kiss went a little like this

And twist

And twist

Yeah, she won't ever get enough

Once she gets a little touch

If I had it my way

You know that I'd make her say

Ooh,

She won't ever get enough

Once she gets a little touch

If I had it my way
You know that I'd make her say

Ooh, ooh

She won't ever get enough
Once she gets a little touch

If I had it my way
You know that I'd make her say

Ooh, ooh

She won't ever get enough
Once she gets a little touch

If I had it my way
You know that I'd make her say
