## "Robbers and Villains"

I seen robbers rob the robbers

I seen shooters shoot the killers

I seen murder murder

I seen parents bury their children

If you get caught in that jam with your blam, dude'll kill ya

I come from that grimy side, nothin' but robbers and villains

I seen robbers rob the robbers

I seen shooters shoot the killers

I seen murder murder

I seen parents bury their children

If you get caught in that jam with your blam, dude'll kill ya

I come from that grimy side, nothin' but robbers and villains

I seen new niggas more solid than day ones, I'm like, "Whoa"

They came back for they lick back

you ain't do shit but make a post

Out on feet, uh uh, come here

lil' bro, get up on 'em close

lil' bro, get up on 'em

lil' bro, get up on 'em

Street shit

Nowadays niggas killas on the net

All they do is tweet shit

Doin' all that trolling, when we catch you, I hope yo' feet quick

uh, I hope they fast

We got switches instead of belts and we put whoopin's on they ass

I seen a bitch fuck with a shooter and made him soft

And for that love, some niggas will pay whatever it costs

Glock a Uber driver, this bitch made to drop 'em off

What you think my shooters for? Them boys get paid to knock shit off (grrih)

I seen robbers rob the robbers

I seen shooters shoot the killers

I seen murder murder

I seen parents bury their children

If you get caught in that jam with your blam, dude'll kill ya

I come from that grimy side, nothin' but robbers and villains

I seen robbers rob the robbers

I seen shooters shoot the killers

I seen murder murder

I seen parents bury their children

If you get caught in that jam with your blam, dude'll kill ya

I come from that grimy side, nothin' but robbers and villains
